

Furniture Film

Furniture film can be printed on one side to create a wood or other faux finish and produced in custom colors for a solid color finish. The backside of the film is easily primed with a wide variety of glues for adhesion to pressed wood or other surface. Film has an embossed, highly scratch resistant finish. The embossed surface helps hide substrate imperfections.

APPLICATIONS:

- TV / Audio Cabinets
- Computer Desks
- Bathroom furnishings
- Drawer wraps

ADVANTAGES:

- Easy to print using a variety of methods including screen printing, offset lithography, and flexography
- Can be primed to accept a wide variety of glues
- Excellent scratch resistance
- Embossed film helps hide substrate imperfections
- Custom colors available
- Acid free - contains no PVC
- Good dimensional stability and lay-flat characteristics
- Excellent chemical resistance
- Recyclable

SPECIFICATIONS:

- Gray, white, and black are standard
- Custom colors are available upon request
- In-line corona treatment
- Thickness range: 4 mil to 12 mil thick
- Standard web width: 44" - 83"
- In-line slitting to custom roll widths
- Biodegradable available
